**GO WITH
THE FLOW.**

**WOULDN'T IT BE FANTASTIC IF
NEW EMPLOYEES WERE ABLE TO
WORK FLAWLESSLY RIGHT AWAY?**

Smart Worker Guidance

Customized production assistance techniques can provide your employees with real-time support throughout their working processes by using texts, images and videos that enable them to manufacture or assemble even complex products without errors. The method takes the pressure off colleagues and greatly shortens the time needed for familiarisation and training.

**WOULDN'T IT BE GREAT IF
YOUR PRODUCT KEPT ITS
PROMISE TO CUSTOMERS?**

Quality Management

Analysed production data can optimise your workflows. Consistent quality management at all stages of production ensures that products are delivered to customers exactly the way they expect them.

**WOULDN'T IT BE GREAT IF DATA
WERE TO AUTOMATICALLY BECOME
KNOWLEDGE FOR EVERYONE?**

Real-time Information – Worldwide.

Access production-relevant data anywhere, anytime. Use this information for analysis, statistics and evaluations and transform data into know-how that benefits everyone.

**The intelligent Industry 4.0
Solutions from Elabo make
Your Business flow.**

Just try it for yourself and let's take on
this challenge together.

**IF EVERYTHING WAS
SUDDENLY IN FLOW?**

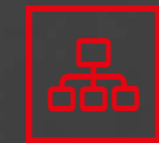

**ELABO SMART
SQUARED**

AT ELABO, FOUR POINT ZERO MEANS SMART SQUARED²

Network Infrastructure & Cyber Security

With the help of solutions provided by the euromicron Group we ensure that our combined technical workstations meet the utmost performance requirements by means of proven data analysis and fail-safe network infrastructure.

Our IT security solutions guarantee reliable process workflows and protection from outside intervention in the smart industry.

Hardware & Software Solutions

Elabo works with state-of-the-art design and research tools when developing hardware and software.

Our specialists design systems tailored to suit your needs, connect your systems with the right interfaces and improve your production results.

Big Data & Analytics

Data is the gold of the future. Proven data capture and customised analysis make it possible to recognise new potential and discover new fields of business.

We will help you to identify potential wastefulness and optimise your production processes in the long term.

The Elabo Academy & Learning Factory

Elabo translates technical data into tangible knowledge. With our help, your employees will be actively supported and benefit from our many years of experience.

With our expertise, you are always one step ahead of your market competitors.
